PATENT APPLN. NO. 10/770,125  
RESPONSE UNDER 37 C.F.R. § 1.116

PATENT  
FINAL

REMARKS

Claims 1-4 and 12 are rejected under 35 U.S.C. § 102(b) as being anticipated by McCall et al. (U.S. Patent No. 5,000,599; hereinafter "McCall"). Claim 14 is rejected under 35 U.S.C. § 103(a) as being unpatentable over McCall. Claims 5-11, 13 and 15-20 are objected to as being dependent upon a rejected base claim, but as being allowable if rewritten in independent form.

The application has been placed in condition for allowance by rewriting claims 5 and 6 in independent form and cancelling claims 1 to 4. The dependencies of claims 9 and 11 to 15 have been amended for consistency with the cancellation of claims 1 to 4 and the rewriting of claims 5 and 6. Claims 7 to 20 depend directly or indirectly on one of claims 5 and 6 and are in condition for allowance.

Removal of the 35 U.S.C. § 102(b) and 35 U.S.C. § 103(a) rejections of the claims is believed to be in order and is respectfully requested. Issuance of a Notice of Allowance and Notice of Allowability is also believed to be in order and is respectfully requested.

The foregoing is believed to be a complete and proper response to the Office Action dated May 23, 2006, and is believed to place this application in condition for allowance. If, however, minor
